

Features:

- oil-filled asynchronous motor within stainless steel housing with thermal contact
- jacket cooling for continuous duty horizontal / emerged
- sealed with high-grade mechanical seal
- brass bearing shield
- stainless steel pump housing and motor shaft
- modern, powerful pump hydraulics with impellers and guide wheels made of wear-resistant plastic

Application:

- irrigation of home and garden and water supply from rainwater cisterns

Scope of delivery:

- pump with 20 m power cable and plug with integrated capacitor, power switch and motor protection
- floating discharge 1 1/4" with filter, tube length 1 m
- horizontal bracket with clamps

Product benefits:

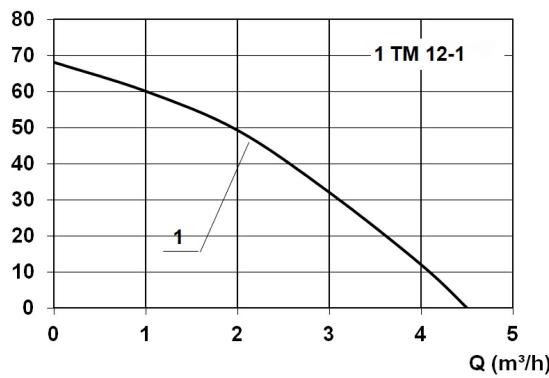

- Intake of the cleanest water short beneath the water surface
- jacket cooling for continuous operation
- including stainless steel pump holder for stable, horizontal usage
- ideal for usage in cisterns, even in case of low water level
