

Features:

- Fully automatic, electronic control of the entire system
- In combination with the Pumps CPS 15/20/25 or Combipress 60
- In-house, needs-based drinking water feed

Application:

- Compact unit for automatic control and drinking water feed of rainwater utilisation systems
- Single-family or two-family house

Scope of delivery:

- Level transmitter with 25 m cable
- Wall bracket set

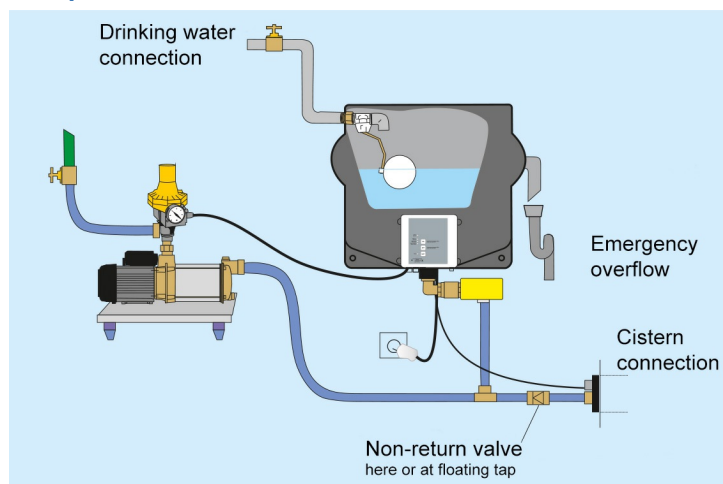

Product benefits:

- plug-in, automatic control and drinking water feed unit
- can be combined with different pump types
- high storage volume and high flow rates make it possible to use large pumps
- for easy refitting for existing horizontal centrifugal pumps
- integrated check valve for installation below the backflow level
- Type Comfort: Level indicator via electronic pressure sensor, possibility to connect a feeder pump or backflow monitor
