zehndar

## Features:

- packaged pumping station made of corrosion-resistant PELLD
- buoyancy-proof up to ground water level of max. $0,5 \mathrm{~m}$ from manhole's lower edge
- installation of one pump of the series ZFS 71, ZPG 50, ZPG 71
- stainless steel piping DN 32, pre-assembled with coupling system
- non-return valve, gate valve and flushing connection 1 " pressure outlet PE-HD $63 \times 5.8$ - outside the manhole
- $1 \times$ inlet DN 150 , further inlets optional
- $2 x$ connection DN 100 for cable gland and air vent

## Application:

- pumping of sewage from single-family houses as drainage pumping station
- for pressure drainage
- for installation outside buildings
- also drivable with manhole covers class B and D

## Scope of delivery:

- pumping station with pressure pipes and valves
- ZFS 71 series - grinder pump (except Art.no. 14483) BEGU
- manhole cover class A-D optional (see accessories)
- control unit ZPS for pumping station (ZPG 50 WA with float switch)

## Product benefits:

- complete pumping station for domestic connections (1 pump)
- complete set - ready for connection available
- load capacity up to 40 tons (class D)
- divers pump options (e.g. ZFS 71, ZPG 50, ZPG 71) made of corrosion-resistant PE-LLD for lifelong operating time
- pre-assembled connections available
- quick-coupling system for easy pump insertion and optimal sealing
